Ovens and dryers tailored to your special requirements.

THREE ZONE PORTABLE LAB OVEN

Whether you're launching a new product or simply looking for a more efficient production method, Lanly's heat processing expertise can help ensure success. Our "can do" approach isn't a boast – it's reality founded on the widest range of experience in the business. Lanly is a team of experts that stand on the leading edge of the technology ready to help optimize your capital equipment investment.

Worldwide we've built an enviable reputation for innovative engineering in the manufacturing of custom-designed heat processing equipment. During our 60 years we've accumulated a wealth of proprietary knowledge that you can enjoy as a Lanly customer. This well-spring of engineering experience encompasses many industrial segments –

- metals
- ceramics
- foods
- coatings
- electrical
- chemical... and more –

and is represented by over 7,000 enduring installations located both domestically and abroad. The photographs here illustrate (in a small way) the scope of our plant facilities and application capabilities.

Give us your exacting specs or merely outline your desires for a unique end product... *the Lanly engineering team will design and build the perfect solution.*
